Meet 45 members of a successful team.

The 45 people you don't see here comprise the staff of Welles-Bowen, Insurers/Realtors. We couldn't get them all together for a picture because they've been too busy serving you.

These 45 busy people led Welles-Bowen to new all-time records in 1974 in both real estate and insurance. And we're counting on them to keep things bright in '75. Like the man said, "When you need to get a job done, give it to a busy person."

Our 45 busy people get the job done. They may not be able to get together all at once for a picture, but that's only because they're working hard to keep you in the picture, whether it's real estate or insurance.

The world's pole vault record has leaped 2' 10" since fiber glass came along

In 1942, the vaulting record was 15' 7 $\frac{3}{4}$ ". Then fiber glass came along and today the record is 18' 5 $\frac{3}{4}$ ". In fact, Fiberglas/plastic is used in hundreds of sports products from surfboards to racing car bodies.

When you think of the new basic material, think fiber glass. And when you think of a great career opportunity, think Owens-Corning.

Owens-Corning is Fiberglas
